**Subject: Application for DevOps and Automation - Key Technologist Position**

Dear Emirates Hiring Manager,

I am excited to apply for the DevOps and Automation role at Emirates Group IT. As a Senior Cloud Infrastructure Engineer with 10+ years of experience in Dubai, I bring proven expertise that directly aligns with your requirements.

**Key Qualifications**

**Cloud & DevOps Leadership:** Led complete AWS cloud migrations achieving 99.9% uptime and 25% cost reduction. Architected HashiCorp Vault integration with Amazon EKS, reducing credential rotation efforts by 60%.

**Technical Expertise:** Hands-on experience with your core technologies:

- **Container Orchestration:** Kubernetes, EKS, ECS, Docker
- **CI/CD:** AWS CodePipeline, GitLab, GitHub Actions, Terraform, reducing deployment time by 70%
- **Infrastructure as Code:** Terraform, Ansible for enterprise automation
- **Programming:** Python, GoLang, C#, JavaScript, TypeScript, Shell scripting
- **Monitoring:** CloudWatch, Datadog, Prometheus, Grafana

**Site Reliability Engineering:** Implemented comprehensive disaster recovery solutions and proactive monitoring achieving 99.9% network accessibility. Applied DevSecOps principles with OKTA integration and vault identity groups.

**Local Advantage:** Dubai-based with immediate availability and deep understanding of regional operations.

**Value Proposition**

My experience modernizing legacy systems, consolidating mono-repository architectures, and building resilient cloud infrastructure at enterprise scale positions me to contribute immediately to Emirates' aviation technology innovation.

I would welcome the opportunity to discuss how my proven track record in cloud infrastructure and DevOps automation can support Emirates' position as a pioneer in the industry.

Sincerely,

**Mohamed Rekiba**
